2. Sample program progression

Please note that the chart below is one example of how you can plan your courses. You should design your own program progression taking into consideration your abilities, workload, co-curricular/work and other commitments. When designing a program progression, you must ensure that prerequisites and co-requisites are met. Use the Planner feature on [Degree Explorer](#) to create your own plan and review your degree and program requirements.

3. Key notes

<p>MAT133Y or equivalent</p>	<ul style="list-style-type: none"> Students interested in pursuing programs in math, statistics, computer science, or actuarial science may be required to complete one of the higher-level math courses. Consult the arts & science calendar to determine the appropriate first-year math course to select.
<p>ECO220Y or equivalent</p>	<ul style="list-style-type: none"> ECO220Y is equivalent to (STA220H+STA255H) / (STA237H+STA238H) / (STA257H+STA261H). However, (STA220H+STA255H) will not be accepted as pre-requisites for ECO300-level courses that require ECO220Y and will not satisfy ECO Major program requirements.
<p>International Requirement</p>	<ul style="list-style-type: none"> 0.5 international requirement satisfied from the following courses: <ul style="list-style-type: none"> RSM437H International Finance RSM462H Managing People in the Context of Globalization RSM480H Business in a Global Economy RSM490H International Strategy RSM491H Global Capital Market Strategy Or approved special topics courses
<p>Economics Minor</p>	<ul style="list-style-type: none"> The Management specialist requirements will complete the requirements for a minor in Economics. Students who want this minor reflected on their transcript can request it on ACORN (i.e., it is not automatically added to transcripts). See program toolkit for more details.

4. BCom Breadth Requirement

The purpose of the [Breadth Requirement](#) is to ensure all students graduating from the Faculty of Arts & Science (which includes Rotman Commerce) have chosen courses across the breadth of disciplines within Arts & Science as part of their undergraduate education.

Important Note - Rotman Commerce students can expect to complete at least 1.0 credit in each of Categories 2, 3, and 5 through program requirements. Therefore, students only need to complete (through non-RSM electives) the following to satisfy the overall Breadth Requirement:

(a) at least 1.0 credit in BR1 or BR4, OR

(b) at least 0.5 credit in BR1, and at least 0.5 credit in BR4

A course's Breadth designation can be found following the course description in both the Arts & Science [Calendar](#) and [Timetable](#).

5. Focuses in Management

Within the Management Specialist, students who choose a specified set of electives within a subfield of management will earn a designation on their transcript showing that they have completed a Focus. Focuses require 2.5-3.0 credits each. Students pursuing the Management Specialist may choose to complete one or more of the following Focuses:

1. Finance
2. Financial Statement Analysis
3. International Business (UofT Global Scholar)
4. Leadership in Organizations
5. Marketing
6. Strategy and Innovation
7. Data Science in Business
8. Managing in Diverse Economics (UofT Global Scholar)

Management Specialist students are encouraged to complete at least one focus, but focuses are optional and not required as part of the specialist. Only students in the Management Specialist are permitted to enrol in a focus except for the Data Science in Business focus, Managing in Diverse Economics focus, and International Business Focus which are open to all specialists.

To pursue a focus, a student must add it to their programs on ACORN and fulfill all of the requirements of the Management specialist and the focus. Once added to ACORN, each focus can be tracked on Degree Explorer.

Please refer to the [Arts & Science Calendar](#) to review specialist and focus requirements.
