

# ROTMAN COMMERCE

## ALEKSANDER

Toronto, Ontario

Specialist in Accounting, Class of 2017

**Why did I choose Rotman Commerce?** As a Toronto native, I wanted to stay close to home. Business happened to tickle my fancy, so I figured that I could keep a step ahead of the competition by coming to one of the best business programs the country has to offer.

**Prior to Rotman Commerce?** I worked many jobs ranging from the dish pit, jewellery selling, bookkeeping, and everything else in between!

**What do I do outside of class?** I run a sole proprietorship called A+ Math Tutoring, offering 1-on-1 lessons in subjects including Math, Science, Economics and French (yes, the name is often misleading!) Aside from work and studying, I love working out, playing sports and spending time with good friends!

**Claim to Fame?** My father's side of the family all come from a small town in ex-Yugoslavia called Titel—the same town Albert Einstein's first wife was from! Hopefully I can build up a real claim to fame for my family name in the future!

**What surprised me most about Rotman Commerce?** This program offers unlimited potential for career opportunities, unmatched learning experiences and close interaction with peers and professors alike. Both academic and career-oriented support are available to an extent I didn't think possible. Rotman offers all the tools necessary to become the best version of yourself you can be. It's up to us as students to use it!

**What is my advice to incoming students?** Don't be intimidated by anybody or anything. You are better than you think you are; embrace it and release your potential!

**What are my future plans?** I hope to expand my tutoring business into a full-flight center for students of all ages looking for help in virtually all high school/university level subjects.

**My highlight at Rotman Commerce** is creating life-long connections and unforgettable learning experiences.
