

ROTMAN COMMERCE

Amelia

Edmonton, Alberta

Specialist in Accounting, Class of 2017

Why did I choose Rotman Commerce? I wanted to study at the best Canadian university, and as Toronto is the financial capital of Canada, there are lots of opportunities here for Rotman Commerce students.

What do I do outside of class? I am a Rotman Commerce Women in Business committee member. I play the piano and enjoy going to the gym. I also really like exploring Toronto.

Claim to Fame? I was heavily involved in two plays at school- I wrote the screenplay, cast students, acted, and directed both productions.

What surprised me most about Rotman Commerce? There are a lot of great conferences, workshops, and events for Rotman Commerce students, which allows students to socialize and build up skill sets at the same time. Also, the upper-year students are really nice, approachable, and helpful!

What is my advice to incoming students? Join some clubs, meet many new people, and make friends- they will definitely enrich your student life!

My highlight at Rotman is I was part of the first place team at the Rotman Commerce Year Two Conference Case Competition. My team worked really well together, and our hard work paid off!

My favourite non-Rotman Commerce course was Introduction to Psychology (PSY100) because it was fascinating to learn more about the minds and thought processes of people in our everyday lives.

The best thing about Toronto is the vast amount of interesting, fun things you can do- there's always an event going on somewhere in the city

The best thing about the University of Toronto is the beautiful architecture all around campus.

My favourite place to eat on or around campus is Future Bakery and Cafe.
