

ROTMAN COMMERCE

GUY

Ottawa, Ontario

Specialist in Finance & Economics, Class of 2017

Why did I choose Rotman Commerce? Studying Commerce in Canada's financial capital seemed like it would provide a lot of opportunities that no other program could provide. I was right!

What do I do outside of class? Outside of class I focus on two things: 1) Learning how to become a successful investor through participation in the Rotman Commerce Finance Association, Portfolio Management Group, and Hart House Investment Club as well as reading the news and books, and 2) Watching a lot of really good movies.

Claim to Fame? Well, I hear people say "I know a Guy" all the time.

What surprised me most about Rotman Commerce? I was surprised by how driven the students are in the program. In Rotman Commerce everyone is shooting for the stars which makes it an exciting environment to be a part of.

What is my advice to incoming students? Learn how to prioritize early and quickly - staying up until 2 am working on an assignment because you decided to binge-watch Suits is completely preventable and never fun.

My highlight at Rotman Commerce is making it to the finals of the Rotman Commerce Accounting Society CGA Case Competition with the Wolfpack of Wall Street.

My favourite non-Rotman Commerce course was Introduction to Computer Science because it was a practical and challenging course that really forced me to apply myself.

My favourite Rotman Commerce course was

Introduction to Economics because I had never taken an economics course and I never realized how much the field applies to day-to-day life.
