

John

Unionville, Ontario

Specialist in Finance & Economics, Class of 2017

Why did I choose Rotman Commerce? Rotman Commerce allows me to be integrated within the business capital of Canada. This is an advantage exclusive to Rotman. As a result, it is easier for me to apply concepts I learned in class while living in the heart of Toronto.

What do I do outside of class? Outside the classroom, I try to stay fit and active by going to the gym. Staying in shape is an excellent way to clear the mind and improve focus. I also try to participate in as many Rotman events as I can.

What is my advice to incoming students? My advice is to have a high level of dedication to their classes and to seek help when it is needed. Also it is important to find the right balance between working, social events and other commitments.

What are my future plans? After graduation, I plan to work for a few years in order to gain real work experience. Eventually I will return to university to acquire a graduate degree.

My favourite Rotman Commerce course was AST 101 because I found it to be extremely fascinating and a welcomed change of pace.

My favourite non-Rotman Commerce course was ECO 100 because it has provided a solid foundation for the rest of the program.

The best thing about Toronto is the variety of activities that are available.

The best thing about the University of Toronto is the amount of unique individuals on campus.

My favourite place to eat on or around campus are the food trucks on St. George.
