

Selina

Markham, Ontario

Specialist in Accounting, Class of 2019

Why did I choose Rotman Commerce? I chose Rotman Commerce mainly because of its location at the heart of downtown Toronto and the diversity of students. With around 30% of international students representing over 30 countries each year, I could meet students from different backgrounds in a closely-knit Rotman Commerce community.

What do I do outside of class? I am the Vice President Internal at Ascend University of Toronto and a Conference Committee Member at the Rotman Commerce Accounting Society. Besides student groups, I spend most of my time exploring new food places with friends!

What surprised me most about Rotman Commerce? The amount of opportunities and resources that Rotman provides students to develop both personally and professionally from involvement in the student groups, to firm visits, as well as on-campus networking opportunities. Students have access to both the Rotman Commerce Career Center and the U of T Career Center.

What is my favourite Non-Rotman course? CSC104. It is a beginner computer science course that focuses on picturing program. After taking Grade 9 Technology in high school, I refused to take any computer science courses for the rest of my life. As friends kept persuading me to try out this course, I finally got up the courage to take it. I totally fell in love with this course and I am considering to take the next level.

What is my advice to incoming students? Get involved. Step out of your comfort zone. Do not be afraid to accept failures. Seize every opportunity to unleash your potential!

My highlight at Rotman Commerce was being a Student Ambassador at Rotman Commerce in my second year. It was a pleasure meeting and interacting with prospective Rotman Commerce students as I was in their shoes not too long ago. I enjoy helping people and I am absolutely grateful for those who have helped me along the way. In return, I tried to help high school students in their application process as much as possible.

My favourite place to eat on campus: Innis Cafe
